

UPDATE JUNE 2020

Hello everyone!

I hope you are all doing well and adapting to the new world order.

I am sending this update out in lieu of a full NWS as, with no activity, we do not have much to report. However, there are a few items here that we need to get out to the membership.

First and foremost, we have had to cancel our June 28 Car Show at the Triple X in Issaquah due to the COVID situation. The adjacent Virginia Mason parking lot is not open for shows yet and does not look promising for our show date. Also, the Phase 1.5 that King County has moved to would not allow for such a gathering and there is no announced time frame for moving to Phase 2. We will announce a date for the 2021 show as soon as we have it.

As you should know by now, the late August 2020 CLC National Tour, hosted by the Mt. Hood Region, has been cancelled as well. A new development this week has indicated a possibility of this tour happening in 2021 or 2022. We will know more soon.

As the COVID situation moves forward, we are looking at some options for some day tour activities to get the cars, and ourselves, out of quarantine. We will get word out as soon as we get some plans formulated. If you have a thought for a tour idea or would like to put together a day tour, let us know. Always happy for a hand in planning.

All for now from me,

Bob LeCoque

Unfortunately, we recently lost one of our longtime beloved CLC PNR members Don Haase. Over the past 15 years he was a huge part of planning fabulous events for our local Pacific Northwest Region, including the National Driving tour in 2010. Don even went so far as to go out on his own to drive on "test runs" in advance of tours to make sure the events were suitable for our members. He would then distribute detailed itineraries, complete with maps, to all the participants.

Don could frequently be seen driving his black 1967 Cadillac Deville Convertible and his burgundy 1976 Buick "lost" Riviera to club events. He developed an affection for cars as a child and later working as a Limousine driver. In addition to being a vintage Cadillac, and Buick, aficionado, Don also enjoyed collecting Spode china and other antiques thus earning him the nickname of "Mr. Spode".

Don was a lifelong schoolteacher who had a vibrant passion for mentoring youth. He loved entertaining by playing piano/organ and displaying his extensive model car collection while hosting elaborate dinner parties for our club meetings.

Unfortunately, Don finally succumbed to his battle with prostate cancer and passed away at the age of 81 years old. His wonderful smile and friendly demeanor will be missed.

-Jerry Leighton
